

# Raspberry PI Setup

- Anmerkung: Ab hier kann theoretisch alles automatisiert installiert werden -> anderer Workshop

A terminal window with a dark background and light text. The title bar shows 'holymoly — pi@raspberrypi: ~'. The terminal displays several lines of text providing setup instructions for Debian GNU/Linux on a Raspberry Pi. The text includes information about distribution terms, warranty, SSH configuration, and Wi-Fi settings. The prompt 'pi@raspberrypi:~ \$' is visible at the bottom.

```
holymoly — pi@raspberrypi: ~  
the exact distribution terms for each program are described in  
the  
individual files in /usr/share/doc/*/copyright.  
  
Debian GNU/Linux comes with ABSOLUTELY NO WARRANTY, to the exte  
nt  
permitted by applicable law.  
  
SSH is enabled and the default password for the 'pi' user has n  
ot been changed.  
This is a security risk – please login as the 'pi' user and typ  
e 'passwd' to set a new password.  
  
Wi-Fi is currently blocked by rfkill.  
Use raspi-config to set the country before use.  
  
pi@raspberrypi:~ $
```

# Raspberry PI Setup

- Mit ssh auf den PI aufschalten
- PI Konfiguration starten
- Das folgenden Unterpunkte werden auf den nächsten Seiten beschrieben

```
[holymoly@holymoly ~] ssh pi@192.168.123.198
```

```
pi@raspberrypi:~ $ sudo raspi-config
```
